Subject: MLPAComments: package s

Package 2 is superior to Package S both as an effective network and as a social and economic plan. This is the preferred package for the monterey bay area..

Package S's Carmel Pinnacles Reserve is too small to achieve social and economic benefit to divers and the Monterey-area dive industry.

Package S's protections along the Pacific Grove shore are scarcely better than status quo, ignoring the wishes of residents and many visitors to that community.

thank you
